

Registration

Registration deadlines:

GLP Workshop 23.05.2016
ITR Workshop 22.06.2016

Online registration:

www.standort-tirol.at/wtz_glp
www.standort-tirol.at/wtz_itr

Please note: Limited number of participants!

First come - first serve!

The events are free of charge.

Knowledge Transfer Centre West (WTZ West)

The Knowledge Transfer Centre West (WTZ West) has defined its objectives as being to employ joint action and steps in order to sustainably intensify and professionalise knowledge transfer to tap latent commercial opportunities, to intensify and expand its cooperation with business and society as a whole, to pursue multi-disciplinary approaches and to leverage possible synergies so as to reach these objectives.

Particular attention is focused on the exploitation and optimisation of commercial potential in the areas of information and communication technologies, physical science as well as the biomedical sciences. The humanities, social and cultural sciences, the development of art and arts-based research and art involve the implementation of diverse strategies relating to sustainable cooperations, multidisciplinary work, innovation processes as well as action in the areas of entrepreneurship and future-oriented copyright-related issues.

An initiative of the WTZ-West:

Industry Standards Seminar Series

We would like to invite you to a new series of seminars under the common title „Industry Standards“.

The aim of these seminars is to address the industry way of thinking, working, modelling, implementing and governing.

Medical University of Innsbruck
Standortagentur Tirol
CAST - Center of Academic Spin-Offs Tyrol

Good Laboratory Practice (GLP)

The necessity to develop patterns and results that can be replicated and implemented by any organization requires „Good Laboratory Practice“.

Is your research activity well thought, well planned, well documented? What can we learn from the industry way of thinking, working, modelling or implementing things? Good Laboratory Practice – GLP - adds value to your research! Let's learn more about it!

This seminar will introduce the theory, practice and importance of GLP and describe how to handle documentation of scientific work to integrate Industry Standards into academic research.

Target audience:

PhD students, postdocs, technicians, young researchers

Date: 25.05.2016
Time: 14:00 - 16:30
Location: Center of Chemistry & Biomedicine (CCB) - M.01.470
Innrain 80, 6020 Innsbruck

Program:

14:00 Opening
14:15 Introduction to Good Laboratory Practice: Theory and practical experience
Dipl.-Ing. Astrid Neumann,
Head of Bioanalytics, Bionorica research GmbH
Discussion
15:15 Coffee Break
15:30 Inventor's notebook: How to do a really good documentation of your scientific work!
Dipl.-Ing. Stefanie Stemp
Head of Quality Control,
Sandoz GmbH / QMS Sellemond
Discussion
16:30 Get 2 Gether

From Idea to Realization

4 extra ordinary ideas!
4 brilliant researchers!
4 Start-ups!

In this seminar the founders of 4 different Life Science Start-ups (Mobile Health, Med-Tech and Pharmaceutical) will talk about their ideas, introduce their Start-ups and address the issues:

„How to bring basic research into market“
„How much does it cost“
„How long does it take“
„How to overcome official regulations (official burdens)“

Target audience:

PhD students, postdocs, technicians, young researchers

Date: 28.06.2016
Time: 14:00 - 17:30
Location: Center of Chemistry & Biomedicine (CCB) - M.01.490
Innrain 80, 6020 Innsbruck

Program:

14:00 Opening
14:15 Dipl.-Ing. Agnes Grünerbl
Animys GmbH
15:00 Dipl. Phys. Christian Dorfmueller, M.Sc.
HearT GmbH
15:45 Coffe Break
16:00 Dr. Holger Bock
former Ugichem GmbH, now CAST
16:45 Dr. Martin Werle
Cyprumed GmbH
17:30 Get 2 Gether
