

# Life Sciences Hub Tirol

A leading region with outstanding prospects

**Tirol**

# Reaching new heights with Life Sciences Hub Tirol

We create an environment where strong ideas become market-ready solutions.

**Marcus Hofer**  
Managing Director  
Standortagentur Tirol

Tyrol is one of the leading life sciences hubs in the Alpine region. With 82 specialised companies, more than 10,000 jobs and annual industry revenues exceeding €4 billion, the region is a major economic and scientific powerhouse.

Eight education and research institutions, together with almost 10,000 students, ensure a continuous flow of innovation and a high level of scientific output. Through the close interaction of academia, industry and targeted funding, a highly connected ecosystem fosters and accelerates innovation.

**Standortagentur Tirol supports this dynamic sector with a comprehensive range of services.**

We support companies and research institutions throughout the entire innovation chain – from the laboratory bench to application at the patient’s bedside. Through targeted consulting, suitable infrastructure, funding opportunities and a strong network, we provide new momentum for the “From Bench to Bedside” challenge and position Tyrol as an ideal location for forward-looking developments in the life sciences.

8  
research and training institutes

3,669

employees across all institutions

9,512  
students in the life sciences field

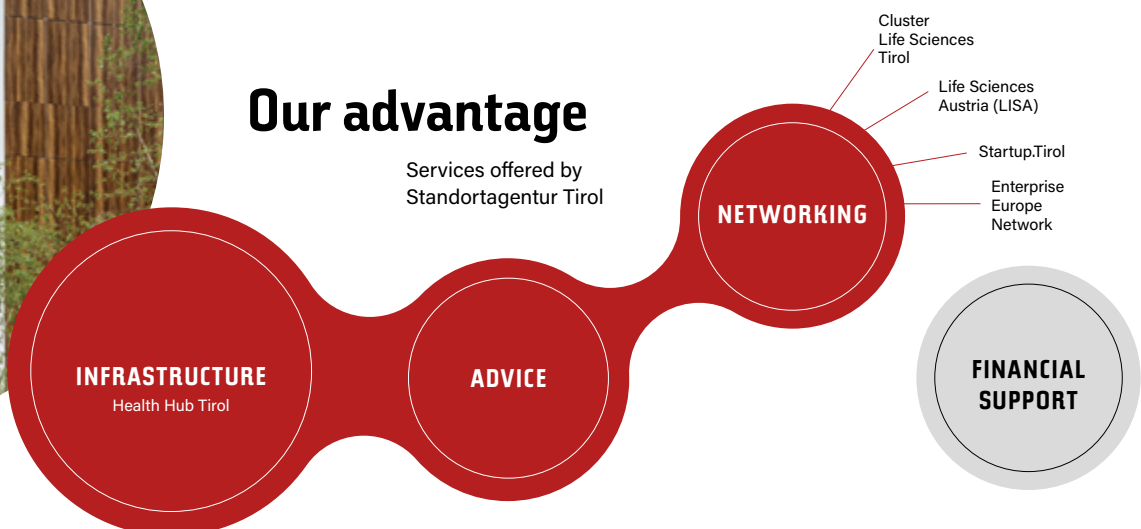

2,213

scientific publications

## Our advantage

Services offered by Standortagentur Tirol

# A concise overview of our core services for life sciences companies in Tyrol:

## SPACE

for research and progress

**Tyrol offers the right state-of-the-art infrastructure for an economic sector with enormous future potential.**

The Health Hub Tyrol offers companies, startups and research institutions in the healthcare sector with fully equipped laboratory facilities, flexible office and meeting spaces, and shared areas designed to encourage interdisciplinary exchange.

## EXPERTISE

that drives progress

**We support life sciences companies from the very first business idea onwards.**

Through our programmes, we support **startups** in developing sustainable business models and strategically bringing their visions to life. In doing so, we provide not only expertise, but also access to a strong network.

Together with **Startup.Tirol**, the central support platform for founders, and the **Enterprise Europe Network**, which provides guidance on EU funding opportunities, we strengthen the region's innovative capacity and actively promote connections with the right partners both in Austria and internationally. In addition, we support companies with **business relocation** and **expansion initiatives**, **talent acquisition**, and **international positioning**.

## CAPITAL

for smart ideas

For innovative companies to succeed, more than just a strong idea is often needed: funding, venture capital and strategic financing are key to achieving the next stage of growth.

**We support companies along this journey with tailored funding advice and assistance in selecting suitable programmes - from regional initiatives to EU-wide funding calls.** In addition, through events, matchmaking initiatives and networks, we provide access to investors who help drive innovation forward with capital and expertise.

## TOGETHER

achieving more

**Tyrol is home to a broad and well-established life sciences ecosystem that closely connects research, industry and academia.**

**Life Science Austria (LISA)** provides strong networking opportunities across Austria and international market access within the life sciences sector, benefiting both companies and research institutions alike.

**The Life Sciences Tirol cluster** connects global players, Hidden Champions and niche specialists with the region's universities and universities of applied sciences, creating a platform for active exchange and targeted knowledge transfer. As a cluster member, your company receives support in all innovation, growth and cooperation initiatives.

The team at Standortagentur Tirol looks forward to meeting you!
